

COMP 1007 Final

Exam, Form: A

Name: _____

Student Number: _____

TA: _____

Date: _____

Section 1. Are familiar with concepts of computer engineering

1. What is the binary representation of 31?

- (a) 1111
- (b) 111
- (c) 11111
- (d) 111111

2. Which of the followings are all operating systems?

- (a) Unix, Windows, Excel
- (b) Android, IOS, Linux
- (c) Microsoft, Linux, Windows
- (d) Word, IOS, Unix

3. What is the result of $((1 \text{ AND } 0) \text{ OR } 1)$?

- (a) 0
- (b) Can not be known
- (c) 2
- (d) 1

4. What do you use when you want to transfer data from main memory to CPU?

- (a) Train
- (b) Bus
- (c) Control Unit
- (d) High Speed Train

5. Which one is not a part of a machine cycle?

- (a) Fetch
- (b) Decode
- (c) Execute
- (d) Program Counter

6. Which of the following will you use when you want to communicate with the core part of an Operating System

- (a) Shell
- (b) Kernel
- (c) Application
- (d) Utility

7. Which one of the following is not part of the CPU?

- (a) RAM
- (b) Arithmetic/Logic Unit
- (c) Control Unit
- (d) Registers

8. Suppose you want to swap the contents of two variables x and y. Which of the following is the right way to swap them?

- (a) $x = y$
 $y = x$
- (b) $\text{tmp} = x$
 $y = \text{tmp}$
 $x = y$
- (c) $x = x + y$
 $y = x - y$
- (d) $x = x + y$
 $y = x - y$
 $x = x - y$

9. Suppose you want to store the exam scores and the averages of all students who entered the university exam. Which of the following programming constructs are essential to do it?

- (a) If-Else, Arrays
- (b) Switch, Loop
- (c) If-Else, Switch
- (d) Loop, Arrays

Section 2. Know the sub-disciplines of computer engineering

10. Suppose you want to store the information about books in a database table. Which information can be a primary key for this table?
 - (a) Name
 - (b) Author Name
 - (c) ISBN
 - (d) Number of pages
11. Suppose you want to design an algorithm to solve the sudoku puzzle. Which of the following topics do you need to learn for that?
 - (a) Computer networks
 - (b) Operating systems
 - (c) Artificial intelligence
 - (d) Database Systems
12. Which computer network type is more suitable for a small classroom?
 - (a) LAN
 - (b) WAN
 - (c) Bridge
 - (d) Router
13. If you want to connect two tables in a database and ensure the data integrity, which type of key is essential?
 - (a) Primary Key
 - (b) Car Key
 - (c) Normal Key
 - (d) Foreign Key
14. Which phase of the software engineering takes most of programmers time?
 - (a) Coding
 - (b) Testing
 - (c) Documentation
 - (d) Requirements analysis
15. Akbank uses ... network architecture.
 - (a) Peer to peer
 - (b) Browser
 - (c) Ring
 - (d) Client-server
16. Which network topology is the best for client-server architectures?
 - (a) Ring
 - (b) Bus
 - (c) Star
 - (d) Irregular
17. Which of the programming language is the oldest?
 - (a) C
 - (b) Java
 - (c) C++
 - (d) Machine language
18. Which of the following is not an object-oriented programming language?
 - (a) C#
 - (b) Prolog
 - (c) C++
 - (d) Java
19. In which game will a normal human have a chance to defeat the computer?
 - (a) TicTacToe
 - (b) 4-in-a-row
 - (c) Chess
 - (d) Backgammon
20. What is the name of the instructor for this course?
 - (a) Emine Ekin
 - (b) Aysegül Tüysüz Erman
 - (c) Olcay Taner Yildiz
 - (d) İlknur Karadeniz Erol

Section 3. Are aware of ethical issues of both computer engineering profession and education

21. Which of the following definitions best fit plagiarism?
- (a) A search technique in artificial intelligence to find better strategies for online gaming
 - (b) A semantic group of software architects that meet online for a purpose (e.g. hacking a server)
 - (c) To present someone else's ideas or work as one's own
 - (d) Sharing of resources such as memory and the processor by multiple running applications
22. Which of the following would be considered cheating in 'strictly individual' projects?
- (a) Copying solutions from online sources
 - (b) Getting help from a friend or tutor
 - (c) Solving the problem together with friends and writing the paper individually
 - (d) All of the above
23. The assignment is due next morning and you still cannot solve a problem. What should you do?
- (a) Call a buddy and ask for help
 - (b) Submit what you have got and start working on the assignment earlier next time
 - (c) Google for a solution
 - (d) E-mail the instructor and ask her to postpone the due date
24. Ethical or not; getting a tutor do the homework assignments for you.
- (a) Ethical if the tutor is not paid
 - (b) Absolutely not!
 - (c) Ethical if the tutor is not paid and he explains the solution to you
 - (d) Ethical if the tutor is paid and he explains the solution to you
25. If you must take a course before you can take another course, this is called:
- (a) Opposite
 - (b) Prerequisite
 - (c) Composite
 - (d) Maturity

Answer Key for Exam | | |---| | A | |---|

Section 1. Are familiar with concepts of computer engineering

1. (c)
2. (b)
3. (d)
4. (b)
5. (d)
6. (a)
7. (a)
8. (d)
9. (d)

Section 2. Know the sub-disciplines of computer engineering

10. (c)
11. (c)
12. (a)

13. (d)
14. (b)
15. (d)
16. (c)
17. (d)
18. (b)
19. (d)

Section 3. Are aware of ethical issues of both computer engineering profession and education

20. (c)
21. (c)
22. (d)
23. (b)
24. (b)
25. (b)
